Notes

To make a better world, make life simpler.

It is what we strongly believe in. It is not just about innovating products, it's about everything we do that affects people and environment around us. We find us responsible to do things differently and in a better way. These are few initiatives we have already set into motion.

CLIMATE IMPACT

GM Modular supports the Climate Impact cause.
We want to help carve a better cleaner world and
that is why we started a strategic policy initiative.
We are committed to align operations and strategies
with environment friendly principles.

RECYCLE

We constantly find ways to make more out of less.
That is why we try our best to use a recyclable resource.
From tiny metal pieces to whatever that can harm
the environment in reproducing, we reuse it.

LESS TRANSPORTATION

We have regional distribution centres spread across
the country. In order to reduce the distance that our
products have to travel to reach our customers,
we have distribution centres with our channel partners
to cut down on the transportation distance that
helps curb CO_2 emissions.

BETTER HOME ENVIRONMENT

A good home environment is important for your health
and well-being. It is not only the ventilation and
construction materials, but also the things you have
inside, that influence the indoor environment of your
home. GM refrains from using any harmful raw
material that may cause unhealthy
circumstances to life.

CERTIFIED

To help consumers make qualified decisions in choosing
products that contribute to a healthy lifestyle, GM products
have received safety certifications from around the world,
as they have been tested thoroughly with regards to
their functioning.
